

VICTOR® CONTINUES DELIVERING
INNOVATION WITH OUR NEW
ARCAIR® TORCH BOOT DESIGN.

NEW

VICTOR®
ARCAIR®

*Meet Our New "Boot" Design – The industry leader in air carbon-arc products has introduced an improved "boot" design that encapsulates the electrical connection between the torch cable and incoming weld cable helping prevent the chance of accidental arcing. **Your Safety Is Our Priority.***

Patent Pending

- Patent-pending two-piece boot design
- Helps prevent accidental arcing
- Ease of replacement in the field
- Available in two (2) different molded "boot" housing configurations
 - Conventional Boot
 - Quick-Connect Hook-Up Kit

Threaded brass inserts
(4 places) to secure the
halves together with
machine screws

Tongue and groove
joints between housing
halves

Support ribbing increasing
overall strength/durability

Support pad for female
connector assembly

Also available with a Power & Air Hook-Up Kit containing a twist lock-style power connection and air hose extending from the rear of the torch cable. This option allows the operator to connect or disconnect the incoming power lead and air line quickly and easily. **Part No. 94-463-046**
